

REZSO DUBICZKI

SENIOR FRONT-END DEVELOPER

Brisbane, Queensland, Australia | Australian Citizen
rezso.dubiczki@gmail.com | rezsodubiczki.com

PROFESSIONAL SUMMARY

Senior Front-End Developer with 10+ years of experience designing, developing and maintaining responsive websites, customer-facing platforms and complex business applications. Experienced with modern JavaScript development, including React, Next.js and TypeScript, with a strong focus on clean, maintainable code, intuitive user experiences and reliable front-end architecture. Background spans insurance, healthcare, rail infrastructure, building management and large-scale company websites. Comfortable collaborating across teams and working with REST APIs, headless CMS platforms, hosting providers and deployment workflows, including Vercel, Netlify and Railway.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Front-End Development: React, Next.js, App Router, React Server Components, Tailwind CSS, responsive web design, reusable component architecture

CMS & Content Platforms: Prismic, headless CMS, content-driven website development

Backend & API Integration: Node.js, REST APIs, third-party API integrations

Deployment, Hosting & DevOps: Vercel, Netlify, Railway, Cloudinary, deployment automation, development and production environments

Version Control: Git, GitHub

Design & Collaboration Tools: Figma, Jira, Confluence

Engineering Practices: UI/UX principles, accessibility, performance optimisation, clean and maintainable code, cross-browser compatibility, Agile development

PROFESSIONAL EXPERIENCE

Front-End Developer | Dreamworld | *June 2022 – Present*

- Developed and maintained websites for Dreamworld, SkyPoint, DWF and NightMarket.
- Built modern front-end experiences using Next.js and Tailwind CSS.
- Used Netlify for website deployment and Azure DevOps to support development workflows and delivery.

Front-End Developer | Compare the Market | *June 2021 – June 2022*

- Contributed to the Everest project, a digital platform supporting car and home insurance.
- Developed front-end functionality using React.
- Worked on customer-facing insurance experiences within a complex digital environment.

Senior Front-End Developer | Levaux | *December 2019 – June 2021*

- Designed and developed the Sense Agent testing and commissioning application for a building management sensor solution.
- Built front-end interfaces using Vue.js, Bootstrap 4 and Sass.
- Worked with Node.js and supporting services to deliver application functionality, with a focus on usability and maintainability.

Front-End Developer | Allianz | *March 2019 – December 2019*

- Developed and maintained insurance websites for major financial services brands, including Westpac, ANZ, NAB and Citi.
- Implemented front-end features and responsive interfaces using Angular and Sass.
- Integrated front-end applications with backend services and APIs, primarily within .NET environments, and worked with the Umbraco CMS.

Senior Front-End Developer | inControl | *April 2018 – March 2019*

- Developed Carps, a clinical and non-clinical task management system used by hospitals, aged care facilities and universities.
- Contributed to a web-based task logging platform supporting desktop, tablet and mobile devices.
- Integrated front-end functionality with .NET REST APIs and SQL-backed systems, focusing on consistent and usable interfaces across devices.

Senior Front-End Developer | MRD Rail Technologies | *May 2016 – April 2018*

- Managed front-end development for TrackSense Cloud Server, a remote monitoring and data logging platform for rail infrastructure.
- Worked across a multi-component system comprising data communication and processing services, backend APIs, databases and a front-end user interface.
- Developed interfaces for monitoring infrastructure assets and presenting real-time sensor measurements to maintenance personnel.
- Contributed to a solution designed to support maintenance decisions and reduce unnecessary site visits.
